I benefit from listening to XM Satellite Radio and its traffic and weather channels. I believe that satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support satellite radio's ability to provide the kind of programming that you demand and deserve.

Sincerely, Marc Lombardo
